

STORM BREWING IN CITY COUNCIL

Evidences of Ructions Crop Out
Over Effort to Take Care
Of Kimball.

HALL SPEAKS RIGHT OUT PAT.

Arraigns Methods of the Board of
Public Works—Fernstrom Also
Contributes Specific Instances.

Before the new city councilmen got firmly seated last night, evidence of a row, which is brewing, cropped out when Rudolph Alf, city auditor, sent in his list of appointments. These consist of C. B. Stevens, chief deputy, E. A. Bock, book-keeper, Charles A. Weaver, clerk; J. J. Acomb, clerk, Frank B. Kimball, deputy book collector; W. J. McLaughlin, bookkeeper, W. E. Wood and E. R. Black, license inspectors, and all were laid over for a week. When the list is taken up again a fight will be made on the appointment of Frank B. Kimball and C. B. Stevens.

Mayor Bransford requested the council in his message to make a separate department of licenses and an expert deputy is also wanted to fill the position of Stevens. The fight began in the caucus to oust these two men particularly, Councilmen O'Donnell and Reed are making a fight to retain these men to fill a political position and the fight is now on in earnest.

The board of public works was confirmed by a vote of 10 to 4 at the meeting of Mayor Bransford, but the members did not escape a scathing denunciation by the minority. Mayor Bransford carried out a pledge by naming Henry G. McMillan, chairman again. The other members are W. J. Holloran, C. E. Brooks, T. J. Armstrong and C. D. Rookledge.

HALL HAS THE FLOOR.

When their names were read, Councilman Hall attacked them for their methods of handling public improvements. He also arraigned the members for employing Mike Fitzpatrick, chief inspector. Councilman Hall cited instances of his incompetency and the vital mistake which he had made in carrying out the work. Mr. Hall said that the chief inspector ought to be an engineer and know a little something about public improvements anyway. He suggested that the inspectors ought to be required to pass an examination or have some qualifications. He cited instances where sewer joints had not been properly made and the work had to be done over again. These mistakes, he said, were made while

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) that surpasses the old International as much as that book exceeded its predecessor. Editor in Chief, Dr. W. T. Harris, former U. S. Com. of Education. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsurpassed scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.
6000 illustrations.
2700 pages.

Write to the publishers for Specimen Pages.

Peptiron Pills

Ironize the blood, tone the nerves, strengthen the stomach, aid digestion, and are a chocolate-coated, acceptable to the stomach and easily assimilated, and the best medicine for anemic, pale, nervous and dyspeptic men, women and children, and all sufferers from the effects of the strenuous life of today. Price 50c. or \$1. Of druggists or by mail. C. I. HODG CO., Lowell, Mass.

Inspectors were on the job and the work accepted.

FERNSTROM'S QUOTA.

Councilman Fernstrom also contributed several voice mistakes to the list. He referred to the outfit sewer which he characterized as a "botch job," and declared that the inspectors were directly responsible for the expense the city had been put in of placing this improvement in commission. Councilmen Holley and Hodgson also voted against the re-appointment of the board of public works.

Dr. H. B. Sprague's appointment as assistant health commissioner, was confirmed. Mayor Bransford also appointed him a member of the city board of health.

The council approved the plans of the city engineer for reservoir sites in Big Cottonwood canyon and ordered them filed in the United States land office. These sites cover Lake Pebe, Lake Mary, Lake Martha, Lake Catherine, and Twint lakes, comprising 75.19 acres of land. This was done at the request of the special water attorneys so that the city would not lose the rights purchased as it did in the South Fork of Big Cottonwood by not following its claims.

SOURCE OF "REVENUE."

The council received another bill last night as usual on the outlet sewer pipe. This time the Campbell Building company asks for \$1,100 for extra work. It was quickly referred to the finance committee. Louis Giesler, contractor on the outlet pumping plant, also sent in an extra bill for \$240. This bill met with the same fate.

Mrs. Z. W. Cummings presented a petition to the council offering to feed the prisoners at the city jail for 94 cents a day. Mrs. Cummings is now a matron at the jail, but it is understood that the Woman's American club will make an effort to secure the contract for Mrs. Cummings.

Kimball & Richards, real estate dealers and property owners, sent a petition to the council asking to annex Thirteenth East and Sugar avenue, between Twelfth and Thirteenth South streets, to the city. The petition was referred to the city engineer to check up and report on it accompanied by an ordinance from the city attorney.

Walter J. Frazier, city food and dairy commissioner, asked for a deputy to assist him. His communication was referred to the finance committee.

The council appropriated \$300 for a bacteriological laboratory where milk tests will be made.

BARLOW FIRES A MAN.

Chief of Police Barlow sent a communication to the council stating that he had discharged Harry Jones, and his action was approved. Jones was let out for "the good of the service."

In another petition he asked that R. Morris, Harry Goddard and John McEvoy be appointed special police and deputy humane officers at the request of Harry Mercer, humane officer. It was referred to the police and prison committee.

Plans were received from the engineer's office for the construction of a concrete conduit to carry the Jordan and Salt Lake Canal across Mill Creek 2,500 feet long replacing a wooden flume. It will cost \$23,000. The matter was referred to the finance committee.

Councilman Mulvey introduced a resolution which was approved, taking a little more of the duties of Frank Mathews, land and water commissioner, away from him. Hereafter the patrolmen in the canyons will be under the supervision of the waterworks department.

Councilman Fernstrom's resolution requesting the finance committee and the mayor to meet with the county commissioners and settle the matter of charging for water rates and collecting taxes was approved. A meeting will be asked for next week with the commissioners.

Cured of a Severe Attack of Bronchitis by Chamberlain's Cough Remedy.

"On October 15th last, my little three year old daughter contracted a severe cold, which resulted in a bad case of bronchitis," says Mrs. W. G. Gibson, Lexington, Ky. "She lost the power of speech completely and was a very sick child. Fortunately we had a bottle of Chamberlain's Cough Remedy in the house and gave it to her according to the printed directions. On the second day she was a great deal better, and on the fifth day, October 22nd, she was entirely well of her cold and bronchitis, which I attribute to this splendid medicine. I recommend Chamberlain's Cough Remedy unreservedly as I have found it the surest, safest and quickest cure for colds, both for children and adults, of any I have ever used." For sale by all druggists.

CONVICTS ARE IMPROVING.

Warden Pratt Finds New Cell House a Cure for Badness.

There are no more convicts in the third or lowest grade at the state prison. They have all become well behaved enough to be promoted into the second and first grades. This desired change, the prison authorities think, is largely due to the new cell house, which is without a superior in the United States. Its advantages have been described in The News, with illustrations from photographs, and the utter ratification of any hopes of escape from the cell house has become so apparent to the convict mind that as far as the administration can ascertain, such convicts as have in the past harbored thoughts of escaping have given them up. So the "bad men" are behaving themselves like "model prisoners," and giving no trouble. Visitors shown through the cell house do not stint their praise, saying it is the best in the state, so that the warden is quite proud of his acquisition.

The trouble at present is in finding enough work to keep the nearly 300 convicts busy, for a convict with nothing to do, deteriorates rapidly. There are 29 or 30 who are thus situated; but the warden manages to find odd jobs about the premises so as to keep them doing something. The warden enlarges on the fact that the new cell house is proving a decided improvement over the old and more cramped quarters.

THE ROUND OF THE THEATERS

THE PRIMROSE SALE.—The sale is now going on at the theater for the one night's performance of the George Foxcroft minstrel, which is set for Thursday evening.

MADAME CARRENO.—The management at the Shubert next Monday evening, report a strong inquiry for tickets. Madame Carreno's work in the cities she is visiting en route to the coast has been a most enthusiastic one, and she appears in Carnegie hall, New York, she swept her audience off its feet.

SKIRMISHES AT ELECTION.

The advance offering is now going on, both at the Shubert theater and the Carsten-Anson Music Co.

Callister-Stewart Faction Wins Out After Spirited Contest—Meet Again Today.

After remaining in session until 7 o'clock Monday evening, the Utah Woolgrowers' association adjourned to meet again this afternoon. The reason for the protracted session yesterday was the discussion of the nature of resolutions to be adopted and the slow work of counting the ballots in the matter of the election of directors of the association. The resolutions will contain some expression relative to the forest reserve administration, especially that of the Manti reserve in this state, and the session today will be held for the purpose of completing and passing the resolutions.

The afternoon meeting of yesterday was held at the Commercial club, as the Kennedy hall, where the morning session was held, was so cold that most of the delegates had contracted a case of gripe before the noon recess was reached. Some skirmishing between factions took place when the matter of electing the directors of the association was approached, the wing headed by J. E. Austin seeking to have the election delayed until after the adoption of the resolutions. The adherents of the other faction, headed by E. H. Callister and C. B. Stewart, outvoted the others, however, and the directors were chosen before adjournment last evening. The election was one of great interest, and more than two hours were required to properly present the credentials and register the votes of the members entitled to ballot. Thirty candidates were placed in nomination, 19 being elected as follows: E. H. Callister, Salt Lake; John C. Madsen, Salt Lake; C. B. Stewart, Salt Lake; Enos Bennion, Vernal; Welford Day, Parowan; Thomas W. Jones, Salt Lake; Henry Mass, Davis county; N. S. Nelson, Mt. Pleasant; John H. Seeley, Mt. Pleasant; N. P. Asgaard, North; L. R. Anderson, Manti; F. P. Kesler, Beaver City; Hyrum McFarland, Ogden; J. R. Allen, Redmond; J. S. Osler, Nephi; W. A. Crane, Redmond; S. T. Rigby, Salt Lake; James C. Robison, Jr., Paragona; George Austin, Herriman.

According to the constitution of the association, the directors are required to meet within 30 days after election to elect a president, and a secretary and treasurer. There seems to be no doubt that E. H. Callister will again be chosen president and C. B. Stewart secretary.

The matter of preparing a set of by-laws for the guidance of the association was discussed, and a motion carried that a committee be appointed to draft by-laws for presentation to the next regular meeting of the association.

A resolution thanking the Commercial club for the use of its assembly room for holding the afternoon meeting will be drafted. Secy. Caine prepared the place after having only a few moments' notice and welcomed the flockmasters on behalf of the club.

The committee on resolutions, which will report at this afternoon's session, is composed of L. R. Anderson, Enos Bennion, Welford Day, Vernal and Thomas Austin of Salt Lake.

CONDITIONS IN THE STATE.

During the afternoon session Thomas W. Jones of Salt Lake, a member of the state board of sheep commissioners made a little talk on the general conditions prevailing with the flocks in this state, and the eradication of scabies. The general conditions in the state, said Mr. Jones, "are what I consider pretty fair. Some cases of scabies were discovered early in the spring. We have been working on those cases and have them practically cleaned up. One case required several dippings. On the whole, I think we may say that we are free from scab. In the northern part of the state, in Boxelder and Cache counties, some scab developed, and because the owners dodged around, we were forced to place some flocks under quarantine. Of course, this caused some loss on the herds where there was no scab, but it was necessary to do it."

"I think the appropriation for this purpose is entirely too small. The wool industry in Utah ought to command a greater appropriation from the legislature. We have a number of capable inspectors, but these men, and the willing and honest men who are often discouraged by lack of funds. I think the sheepmen ought to work to send a delegation to the next state legislature that will help us in our industry. We are certainly entitled to assistance, as sheepraising is one of the greatest sources of wealth in the state."

Mr. Jones was named as the head of the committee having power to levy for contributions among the members of the Utah Woolgrowers' association for the purpose of paying off an old judgment which has been constantly hanging over the head of the present organization, although not contracted by it. The judgment was rendered in 1905 against the association, which preceded the present organization, but without the "Utah" before it, making it a state organization. The judgment was originally for \$5,000, but accrued interest has brought it up to \$7,000, and the amount will be raised by contribution.

DR. MURRAY TALKS.

A timely talk was made by Dr. F. E. Murray, chief inspector of the local office of the bureau of animal industry before the assembly of the woolgrowers held at the Commercial club. Dr. Murray told of the efforts being made by the government in the direction of removing scab from the flocks of the country, saying that the disease had been almost entirely done away with. He said the government is adopting vigorous measures looking to the eradication of the disease, and with the co-operation of the flockmasters this object he said will be accomplished.

At the conclusion of Dr. Murray's address, many members asked questions as to the nature of the disease and the means for its eradication, and these were answered by Dr. Murray. The association also passed a resolution pledging the co-operation of the Utah woolgrowers in the campaign against scabies.

Dr. A. C. Young, state veterinarian, also spoke briefly on the diseases of sheep in Utah, and like Dr. Murray, urged united effort on the part of the growers in assisting the government to stamp out the disease.
